There's one experienced leader

When choosing a power transmission partner, there are really only three things to consider: their past, their present, and our future together.

OUR PAST

More Operating Experience

Generation after generation Flender-Graffenstaden has delivered innovative and dependable technology. Our record of reliability, availability and maintainability is matchless.

OUR PRESENT

Superior Operating Performance

Delivering superior overall performance with applications that lead the way in Health Safety and Environment matters, output efficiency and economic returns.

OUR FUTURE

As your Power Transmission Partner

For your future, choose a partner whose technology is already recognized as being the best. A partner you know is committed in all the areas you need with resources to back it up. You'll find we are your best partner to meet the challenges of the future.
